Partner

Business-Centric Approach

At EFS Networks, we take pride in our extensive experience crafting solutions tailored to a diverse array of industries and specializations.

Our Zoho solutions are designed to:

- Facilitate and monitor growth
- Demand minimal training investment
- Offer straightforward administration
- Provide cost-effective implementation
- Offer limitless functionality

Limitless Functionality, Responsibly

EFS Networks aligns our clients' goals with endless possibilities.

Our strategies are designed to align with your budget, roadmap, personal capacity, and team dynamics. Our group of Zoho specialists, business advisors, and software engineers collaborate to pinpoint optimal solutions and implementation strategies tailored to each client.

Zoho Experts

CRM Experts

Zoho CRM can fit any business style. EFS Networks implements advanced workflows, pipelines, integrations, and customizations that ensure that our clients remain in control of their CRM.

Custom Solutions

Using Zoho Creator and additional Zoho services including Zoho Catalyst and Zoho One Platform, EFS Networks can create custom software within your Zoho environment to enable full operational coverage of your business.

Moving to Zoho?

Our team of data engineers will migrate you legacy systems to Zoho with expert precision. EFS Networks will identify cost-effective licensing and perform extensive training for your team. All Zoho newcomers will receive a roadmap for their new system upon completion of their first project.
